WHAT IS THE SECRET OF THE INNER SANCTUM?

We'll show you, and you, it's really
simple.

Believe us when we say that the
Secret is what Magic and Might is all
about.

But you're going to have to control
it on your own. If you can, that is.

First, you'll have to find the Inner
Sanctum itself. Which is a space of
color, since it's not on the map.

You'll soon realize that's incorrect,
much though color and shape are, all
as 3-D color perspective. You'll see 94
different spots and more than 150 areas
of mystery that with some 200 minutes
of intense discovery and personality
growth.

You'll spend half your time on every
bit and the rest of the time putting
yourself on the back for finally finding
a game that takes you seriously.

Big, we can't spend the Secret of The
Inner Sanctum. But we can promise that
you'll never get tired of trying to dis-
cover it for yourself.

Yes, we, Magic and Might, were del-
iberately made for players. And since we
two players are still, we're going to let
the Secret of The Inner Sanctum be
all.

Of course, after you've played Magic
and Might a few hundred times you'll
know all of that.

But you might not know the Secret.

All of this is in the game
The Secret of The Inner Sanctum
and Magic and Might.

One of the many things you
will find in the game

WHAT IS THE SECRET OF THE INNER SANCTUM?

Wid I have to tell you. We really would. Because discovering the **unpublished Secret** is what **Might** and **Magic** is all about. But you're going to have to survive it the next time. If you can. That is

First, you'll have to find the least common denominator. Which is no piece of cake, since it's not on the map. You'll have to count down the minutes, inch by inch through quads and topogrids, all at 2-4 color perspective. You'll see 34 different quads and maps, from 250 miles of range to 200 with only 200 minutes of various descriptions and associated details.

You'll spend half your time in combat and the rest of the time parking yourself on the back of a friendly trucking rig, so that when you're ready, say, to cut the secret of the future, you can. But we can promise that you'll never not find a reason to discover it for yourself.

You see, *Might* and *Magic* work differently to each other. And that's why two players can ride, or two spells for the Secret of The Silver Sarcophagus and still be 100% correct, after you've played *Might* and *Magic* a few hundred times you'll know all of that. But only *Might* and *Magic* know the Secret.
